NHÀ XUẤT BẢN ĐẠI HỌC QUỐC GIA HÀ NỘI

Lời giới thiệu

Xin giới thiệu đến bạn đọc cuốn *"Trắc nghiệm kiến thức tiếng Anh 7"* của thạc sĩ Võ Tâm Lạc Hương. Đây là tài liệu được biên soạn nhằm phục vụ đối tượng là học sinh khối lớp 7 và giáo viên THCS theo chương trình và sách giáo khoa mới của Bộ GD&ĐT, với mục đích giúp các em học sinh ôn tập và hệ thống hóa các kiến thức đã học, các thầy cô giáo có thêm tư liệu để soạn giảng và kiểm tra môn học này.

Sách được trình bày khá rõ ràng và bám sát theo từng đơn vị bài học (unit) và được thể hiện dưới các dạng bài kiểm tra trắc nghiệm khách quan. Trọng tâm của sách gồm những phần:

- Cách đọc (pronuciation)
- Tự vựng (vocabulary)
- Ngữ pháp (grammar)
- Khả năng hiểu biết nội dung một đoạn văn (comprehension)

Những ngữ liệu xây dựng các bài tập ở đây được tác giả lấy ra từ những nội dung của bài học trong sách giáo khoa với nhiều mức độ khó, dễ và bao quát được các kĩ năng ngôn ngữ khác nhau. Và để đạt được các kết quả tốt nhất, học sinh cần kiên trì tự làm các bài tập đã cho trước khi xem đáp án ở cuối cuốn sách nhằm kiểm tra lại các phần đã làm.

Chúng tôi tin rằng cuốn *"Trắc nghiệm kiến thức tiếng Anh 7"* của thạc sĩ Võ Tâm Lạc Hương sẽ giúp cho các thầy cô giáo thêm một tư liệu quý, các em học sinh sẽ có cơ hội kiểm tra kết quả học tập của mình và chuẩn bị tốt cho việc làm bài kiểm tra học kì...

Mặc dù tác giả đã có những cố gắng trong việc biên soạn song khó tránh khỏi những khiếm khuyết, chúng tôi rất mong nhận được nhiều ý kiến đóng góp của các thầy cô giáo, phụ huynh và học sinh để những lần tái bản sau sách sẽ được tốt hơn.

Mọi góp ý xin gửi về:

What do I feed my hamster?

Hamsters are delicate animals. They need to eat a balanced diet, or they can become very sick. It is important that hamsters be fed only foods that are healthful for them. Most pet stores sell hamster mix. This is a combination of foods that are just right for hamsters. Some hamsters are picky eaters, and you have to find a hamster mix that your hamster will like.

Most hamsters only eat a few tablespoons a day. You should feed them at the same time every day, or you can just keep your hamster's bowl full. Remember to clean the bowl at least once a week. Hamsters also drink a lot of water, so be sure to keep the water supply full and fresh.

Just like people, hamsters like treats. In addition to the hamster mix, you can occasionally feed your hamster seeds, nuts, raisins, and some other people food. You should never feed your hamster anything unless you are sure that it is safe for hamsters. Hamsters have *cheek pouches*, little pockets in their mouths where they can store food. Foods that are not right for the hamster can get stuck in these pockets and make the hamster sick.

Feed your hamster carefully, and always take good care of your pet!

On a Hot Day, You Can Play Forever

On a very hot day, it can be hard to know what to do to feel good. If we run around, we may feel dizzy and sick to our stomachs. This is because our bodies can't get rid of the extra heat. However, if we just sit and do nothing, we may feel restless and bored. Are there things we can do to feel good and have fun when we're hot? Yes!

Playing in water is one way to feel cooler. Of course, people with a pool, river, brook, lake, or ocean nearby can play in the water very easily. People who do not have a body of water can still play in water, though. Playing in water from a sprinkler on the end of a hose can be cooling and fun (make sure the water is clean, first). Sometimes in the city, fire fighters will open a hydrant and let children play in the water. Taking a cool bath or shower, or even washing toys in a pan of cool water can feel good on a hot day.

It's also important for all animals, including humans, to drink water, especially in hot weather. If you feel thirsty, you are already dehydrated, so don't wait for thirst before you start to drink. On hot days, you can lose two gallons of water in one day, so many doctors agree that you should try to drink at least that much every day (that's about 16 glasses of water!). Drinks with caffeine and a lot of sugar are not good for you in general, and are even worse on hot days. Mixing a little fruit juice into your water is a fun way to help you drink plenty of water. On a hot day, you can learn how to say water in many different languages, or you might have fun making up exotic sounding names for water.

The food we eat also makes a difference in how we feel in the heat. Cold foods, such as ice cream, sherbet, flavored gelatin, and drinks with some ice can cool down our bodies. Fruits and vegetables are easy for the body and refreshing. Hot food and

foods that are hard for the body to digest (like most proteins) make our bodies warmer. Plan a healthy menu for a hot day... one that doesn't involve any cooking, and is refreshing and cooling.

The clothes we wear can help us feel cooler, as well. Light-colored, light-weight clothes feel cooler in the sun than dark, heavy clothing. Loose sleeves and baggy pants are more comfortable in the heat than tight clothes. Natural fibers that "breathe", such as cotton, are cooler than polyester or other synthetic fabrics. What if you were a clothing designer? What kinds of clothes would you design for a hot day?

Even though it isn't healthy to run around during the hottest parts of the day, that doesn't mean a hot day isn't fun! You can play school, library, bank, and office while sitting still. You can look at books and read stories in front of a fan. You can paint, sculpt, color, or draw without moving your body very much. You can make up stories or poems and write them down. These are just some of many cool things to do on a hot day.

In many countries where it is very hot, people stay inside during the hottest part of the day (between noon and 4 p.m. usually). They sit quietly and rest (and even the grown-ups take naps!) during the hot part of the day. Then, they can stay outside in the cool of the evening, or get up in the morning before the sun is too hot, to do the activities that they want to do. Maybe some hot day, you can pretend you are in one of these countries, and spend the day doing what they do (prepare some typical meal, for example)—and don't forget to have the afternoon rest!

Read the text and choose the best answer to each question.

A month ago I had no idea that on a Saturday afternoon in November I'd be hanging 30 meters above the ground and enjoying it. Now I looked down at the river far below me, and realized why people love rock-climbing.

My friend Matt and I had arrived at the Activity Center on Friday evening. The accommodation wasn't wonderful, but we had everything we needed (beds, blankets, food), and we were pleased to be out of the city and in the fresh air.

On Saturday morning we met the other ten members of our group. Cameron had come along with two friends, Kevin and Simon, while sisters Carole and Lynn had come with Amanda. We had come from various places and none of us knew the area.

We knew we were going to spend the weekend outdoors, but none of us was sure exactly how. Half of us spent the morning caving while the others went rock-climbing and then we changed at lunchtime. Matt and I went to the caves first. Climbing out was harder than going in, but after a good deal of pushing, we were out at last - covered in mud but pleased and excited by what we'd done.

Read the text and choose the best answer to each question.

The government published a report yesterday saying that we need to eat more healthily - more fruit and vegetables, less fat and sugar. So that means fewer burgers, chips and fried food as well as cutting down on sweet things. We went into central London yesterday at lunchtime and asked people what they thought about it. "It's got nothing to do with the government what I eat," says Paul Keel, a building worker, as he eats a beefburger and chips washed down with strawberry milkshake. "I think I have a healthy diet. You see, I don't normally eat a beefburger for lunch. Normally I just have the chips." Any fish? "I like cod. But I've only ever had it once." Tim Kennor, a librarian, welcomes the government advice. But he also has his own rules. "I think," he explains, eating his fried chicken and chips, "it's important to eat a variety of food." We then asked Dorothy Matthews, aged 74. "I don't think it's the government's business to tell us what to eat." We went into Simpson's restaurant and asked the manager if people had changed what they were eating. "I don't think people believe all these reports any more. What they say is good for you in June, they

say is bad for you in July. People have stopped taking notice. We serve what we've always served. Almost all of it is fattening."

- A. People don't understand the advice given.
- B. People think they will soon be given different advice.
- C. People don't bother to read these reports.
- D. People are more concerned about losing weight.

25. Which of the following is part of the government report?

- A. The population of this country should eat less.

Dana's Flower Garden

Dana loves flowers. Her favorites are daisies, tulips, and daffodils. Tulips and daffodils come up every spring, and daisies come up later in the summer. These plants are perennials; they come up year after year.

Dana loves the spring because she can go to the flower market to buy her annuals. The annuals only last one season, but they add a lot of color to the garden. Dana got up Saturday morning very early. She wanted to get to the market early so she would have time to plant everything when she got home. Off she went to Barton's Flower Market. She ran into some friends.

"Hi, Dana," they called out to her.

"Hi," said Dana with a big smile. "Let's look around together!" Dana and her friends saw pansies, geraniums, periwinkles, and petunias.

"Oh, so many pretty flowers!" exclaimed Dana. "I love them all."

Dana decided to buy red and yellow pansies, blue periwinkles, and purple petunias. "That will add a lot of color to my garden," thought Dana. She said good-bye to her friends and went home.
